EXCELLENCE

DO'S & DON'Ts

Furniture Fittings
Care to last long

Install the products as per fitting instructions provided.

Ensure proper adjustments/alignments and after installation (including floor level and cabinet dimensions).

Hardware installation to be carried out only after civil & painting work is completed.

Always use a clean and dry cloth to wipe any part of the hardware. May be done twice a month.

For materials such as stainless steel etc., always use a special cleaner (if available) or clean water in a soft cloth or sponge (slightly damp, not wet) and re-wipe the area with a dry cloth once done.

If unsure about product installation, please download fitting instruction from www.ebco.in or contact our authorized distributor/dealer or company directly for assistance.

Do not use any kind of cleaning agents such as Thinner, Turpentine Oil, Colin, Detergent Solutions etc. to clean hardware components. Do not apply Paints, Polish, Varnish.

Do not abuse the product- i.e, hammering and forcefully exceeding the opening angles, forcefully pushing the channels without considering/checking for side gaps, exceeding the specified load capacity, exposing to heat or fire etc. (Do not alter or modify a product)

Do not lubricate the products without first checking the applicability of the lubricant with the company.

Do not open a product to inspect it's internal parts without consulting an authorized distributor or the company directly.

Do not let saw dust and concrete rubble/dust enter any components of the hardware.

TO DELIVER WORLD-CLASS PERFORMANCES EVERY TIME. WE KNOW THE FEELING.

Rain or shine, day or night; when you bowl to change the game, you get a world champion like Jasprit Bumrah. When you create furniture fittings to make people's lives effortless, you get a brand like Ebco.

Here's to being consistent, truly Indian and world-class.
